

CONNECTICUT FOOTBALL OFFICIALS ASSOCIATION

Subject: *Assignment of Football Officials within the State of Connecticut (revised)*

A. Purpose

To define a procedure and policy governing the assignment of football officials within the jurisdiction of the local association (i.e. Central Connecticut, Colonial, Eastern, Fairfield County, New Haven and Western).

B. General

The intent of this procedure is to answer all questions and alleviate grievances relative to jurisdiction of the local associations mentioned above.

C. Specific

1. No association will solicit nor will it accept a schedule from a school for the purpose of assigning football officials to football games if that school has been serviced by another association unless agreed to by the associations involved and approved by the CFOA.

2. There will be no mixed crews assigned to games.

This section may be waived for post-season games if agreed to by the local associations involved and approved by the CFOA.

Note: Mixed crews are defined as being constituted of football officials from more than one association.

3. In the event field conditions dictate a game be moved to a different location, and that location falls under the jurisdiction of another association, the following rulings apply:

- a. If the game remains a home game of the original team and that school is paying the officials, then the association, which had the original jurisdiction (assigning responsibility), will have the responsibility for assigning officials to the changed site. *Exception: Mutual agreement of the associations involved.*
- b. The situation cited in a. may be changed if requested by the association with the assigning responsibility and agreed to by the association, which would normally assign officials at the changed site.
- c. *Except for playoffs, the above rules apply; however, the territorial board may relinquish a game to the original board with or without request for any reason (i.e. lack of officials to work the contest, etc.).*
